EDUCATION

C.K. Pithawala College Of Engineering & Technology

B.E in Information Technology

Government Polytechnic Valsad

Diploma in information Technology

Surat, Gujarat, INDIA

09 2025 – 08 2028

Valsad, Gujarat, India

08 2022 – 08 2025

SUMMARY

Passionate and detail-oriented Information Technology student pursuing a B.Tech in IT with a strong academic record and hands-on experience in web development. Skilled in building responsive and user-focused applications using JavaScript, React.js, Node.js, HTML, CSS, SQL, and PostgreSQL. Experienced with Git/GitHub, Firebase, and modern web development tools. Strong problem-solving and logical-thinking abilities with a keen interest in building practical software solutions.

TECHNICAL SKILLS

- **Programming:** JavaScript, Java, Python
- **Frontend:** HTML5, CSS3, React.js
- **Backend:** Node.js, Express.js, REST APIs
- **Database:** PostgreSQL, SQL, MySQL, Firebase
- **Tools & Platforms:** Antigravity, GitHub, Firebase, VS Code, Vercel
- **Core Concepts:** Data Structures & Algorithms, DBMS, Object-Oriented Programming, API Integration
- **Soft Skills:** Problem Solving, Logical Thinking, Team Collaboration, Quick Learning

PROJECTS

ShopVerse — E-Commerce Web Application

- Developed a full-stack e-commerce platform with product browsing, search, filtering, shopping cart, checkout, and order management.
- Implemented user authentication, admin functionality, order tracking, GST invoice generation, and payment integration.
- Built responsive interfaces and integrated frontend, backend, database, and API functionality.
- Tech Stack: React.js, Node.js, Express.js, SQLite, JavaScript, JWT, Razorpay

World Explorer

- Developed an interactive 3D globe application for exploring countries and viewing country-specific information.
- Integrated data related to countries, weather, economic information, and travel planning.
- Built an immersive and responsive user experience using modern React and 3D web technologies.
- Tech Stack: React.js, React Three Fiber, JavaScript, APIs, 3D/WebGL

AI Interview Simulator

- Developed an AI-powered interview simulator for analyzing interview performance and communication.
- Implemented camera-based engagement analysis, speaking pace detection, and filler-word tracking.
- Designed an interactive interface focused on providing useful performance insights to users.
- Tech Stack: Next.js, React, TypeScript, MediaPipe, Web Audio API
